

Rhubarb, Slow Motion

I know it's easy
Lost your wheels,
Went speeding round the bend
You're so unlucky,
A million trees,
Could never break your fall, or slow you down

CHORUS:

Falling in slow motion, falling slow
Falling in slow motion, falling slow,
You're falling, you're failing
You're trying, you're trailing
You do what you can but we're all going to fade in slow motion.

You're so unhappy,
Raise your hands,
And wave it to someone
To see you buried,
A million spades,
Could never dig you out, or lift you up.
