

# Rialto, Anything Could Happen

They tried to kill us off  
But this show's not over  
Cos we were born to shine  
And thrill like supernova  
So dry your tears don't cry now  
It's nowhere near the final curtain

Anything could happen  
This world's uncertain  
Anything could happen

Down every darkened street  
We'll search until we find them  
With knives between our teeth  
We'll creep up behind them  
Cos creatures of our kind will  
Not give in till the final curtain

Anything could happen  
This world's uncertain  
Anything could happen  
I know you're hurting  
But anything could happen  
Anything could happen

I know you're hurting  
Anything could happen  
This world's uncertain  
Anything could happen
