

Rialto, Anything Could Happen

They tried to kill us off
But this show's not over
Cos we were born to shine
And thrill like supernova
So dry your tears don't cry now
It's nowhere near the final curtain

Anything could happen
This world's uncertain
Anything could happen

Down every darkened street
We'll search until we find them
With knives between our teeth
We'll creep up behind them
Cos creatures of our kind will
Not give in till the final curtain

Anything could happen
This world's uncertain
Anything could happen
I know you're hurting
But anything could happen
Anything could happen

I know you're hurting
Anything could happen
This world's uncertain
Anything could happen
