

# Rich The Kid, Just For You

Eye, caught my eye  
Baby, you caught my eye  
Caught my eye

Baby girl, I ain't a fool for love, you caught my eye  
When we first met we was just chillin', fuckin', gettin' high  
But now I love you girl  
I really need you girl  
Fussin', fuckin' we was fightin'  
Baby girl just ride it  
She call me daddy when I'm inside her  
Pull out my dick and she get excited  
You was hurt to see my phone hoes textin' me  
But I don't need them other bitches  
Only you and me

Baby girl I ain't just playin'  
I really need you  
I was tourin' on the road  
Came home to see you  
Thank you God for my soulmate  
I told you that we gon' be straight  
No chance it was fake  
Got outta jail beat the case  
Now we ridin' round the hills out in Hollywood  
Told your momma you with me  
And we gon' be good  
Diamonds all in your ring  
I'mma show you what I mean  
Now we onto better things  
Forever you and me  
Niggas hatin' they bitches  
My fans tryna take pictures  
Changing my life to be with you  
Come home beat the pussy  
Baby smell like Versace  
Neck good, extra sloppy  
Right here cause you got me
