Richard John Thompson, No-one Ever Told Me

No-one ever told me if it's black on white
White on black or grey
Tell me what it feels like when it feels so right
And why you always feel this way

No-one ever told me if my feelings lie
To help me through the strain
Tell me what it feels like with a tear in your eye
Joy or tears of pain

Tell me if you think the way I do
Well I hope you feel the same way too

No-one ever told me if it's right or wrong
To speak my thoughts out loud
Tell me what it feels like when the feeling's gone
And how to blend into the crowd

No-one ever told me if you miss when you cry
Or cry because you miss
Tell me what it feels like when you feel so alive
And when you breathe every breath and kiss every kiss

Tell me if you think the way I do
Well I hope you feel the same way too

Tell me if you think the way I do
Well I hope you feel the same way too
Tell me if you think the way I do
Well I hope you feel the same way too
