

# Richie Kotzen, Blue Star

Dont you know Im waiting for you, baby?  
Dont you know Im waiting for a sign?  
Because theres a light  
To guide us through the night  
You might think Im crazy  
I would die for you  
Because I love you with all of my heart  
Baby Ill always will  
Dont forget it from the start  
You and I were meant to be together  
A light is shinning  
A light is shining for me and you  
And I know the light is from a blue star of love

Memories electrify my senses  
Of how it used to be before you left us  
Because there is a light  
To guide us through the night  
You might think Im crazy  
I would die for you  
Because I love you with all of my heart  
Baby Ill always will  
Dont forget it from the start  
You and I were meant to be together  
A light is shinning  
A light is shining for me and you  
And I know the light is from a blue star of love
