

# Richie Kotzen, My Angel

Now I could sit around and talk about all my problems  
Or try to tell you how I feel  
But I can't get that deep  
And if you wonder why I always seem so distant  
Well there's more than what you see and I want you to know

If I could change at all  
You know that I would change it all  
And you would be my angel  
If I could do it I would do it right now  
If I had to fall  
I know that I would have it all  
And you would be my angel  
And I would never worry about nothing

Now I could sit around and say I need forgiveness  
But I would never put you through the pain  
Because you're worth more than I can give  
So I feel myself slipping deeper into a dream world  
You and I in heaven in the clouds and I don't wanna wake up Oh

If I could change at all  
You know that I would change it all  
And you would be my angel  
If I could do it I would do it right now  
If I had to fall  
I know that I would have it all  
And you would be my angel  
And I would never worry about nothing

It's been too long and I'm too far down  
I just wanna be the one you can't live without  
I know you're too good and I'm too far gone  
You're better off if I'm not letting you down Oh

If I could change at all  
You know that I would change it all  
And you would be my angel  
If I could do it I would do it right now  
If I had to fall  
I know that I would have it all  
And you would be my angel  
And I would never worry about nothing
