

Richie Kotzen, Where Did Our Love Go

You lift me up fill my soul
Like nothing no one has ever known
Out on my own for so long
I knew that my time was gonna come

Oh I see the way that things have come to be
And all that I been through made me realize

I don't wanna feel no hurt or tell you the words
Where did our love go
I just wanna feel like I do the truth is in lovin' you
I know where our love will go

I feel you run through my blood
You give me more than I warrant
And though it seems like I lost some time
I know that time is on my side

Oh, I could tell you, baby, what I mean
But the words could only compromise my feelings

I don't wanna feel no hurt or tell you the words
Where did our love go
I just wanna feel like I do the truth is in lovin' you
I know where our love will go

I don't wanna feel no hurt or tell you the words
Where did our love go
I just wanna feel like I do the truth is in lovin' you
I know what our love is
I just wanna feel like I do the truth is in lovin' you
I know where our love will go
