

Rick Nelson, Your True Love

True love (your love) true love (your love) true love baby that's what you're givin' me
True love (your love) true love (your love) true love baby that's what you're givin' me

God made the world and he made it round I got my baby and I'm glad I found
Her love was meant for me and my baby she'll always be
She gives me true love (your love)...

[guitar]

True love (your love)...

Well the big little young and old we all need something to have and hold

When I found you I found that you give me love I can't forget

You give me true love (your love)...

True love baby that's what you're givin' me
