

# Ricky Nelson, Call It What You Want

Play it hard, make it soft, make it sound kinda sleazy  
Put it in, take it off, no one said it was easy  
Number one, I don't know, better get her direction  
Here it comes, there it goes, didn't pass his inspection

Be yourself, take a chance, we know you can do it  
Have a wierd rubber pants, number ten with a bullet  
Good words, wrong song, don't try to seduce her  
Sounds great, hold on, think you need a producer  
No way that punk rock can set you free  
Put your mind at ease

Call it what you want, it's alright  
It's rock 'n roll to me  
Call it what you want, it's alright  
It's rock 'n roll to me  
It's rock 'n roll to me

Real bad, pay your dues, save the tuition  
Take a chance, bye bye, shouldn't make a decision  
My friends they arrive, rent a house on the ocean  
Go to lunch, outta sight, we were talkin' promotion  
No way that punk rock can set you free  
Put your mind at ease

Call it what you want, it's alright  
It's rock 'n roll to me  
Call it what you want, it's alright  
It's rock 'n roll to me  
It's rock 'n roll to me
