

# Ricky Nelson, Make Believe

Make believe, you're in my arms tonight  
And there's a moon so bright  
Oh, make believe

Make believe, there's no one else but me  
To love you constantly  
Oh, make believe

Please believe I love you, honestly I do  
I wanna love you honey  
In the mornin' and the nighttime too

Why don't you believe in everything I say  
I'm sure I can find a way  
To make you believe

Just believe, that you'll be mine someday  
Then I won't have to say  
Oh, make believe

Please believe I love you, honestly I do  
I wanna love you honey  
In the mornin' and the nighttime too

Why don't you believe in everything I say  
I'm sure I can find a way  
To make you believe

Just believe, that you'll be mine someday  
Then I won't have to say  
Oh, make believe  
Yeah make believe  
Oh baby make believe  
Mmm make believe
