

Ricky Nelson, String Along

String along, that's all I am is just your
String along, someone that you just seem to
Bring along whenever you are all alone, need some company
You always turn to me

String along (string along), that's all I do is sorta
String along (string along), you never seem to notice
I'm along, I just want you to want me, too
How I hope and pray that you'll need me some day
