

Ricky Skaggs, I Don't Remember Forgetting

I don't remember forgetting
I don't seem to recall
If I neglected to show you I love you
I don't remember at all.

Ten years of thinking we're happy
Now you say that our love is gone
I'm racking my brain but I can't see
I'm wondering where I went wrong.

I don't remember forgetting
I don't seem to recall
If I neglected to show you I love you
I don't remember at all.

--- Instrumental ---

Now you say that I've been distracted
Not seeing the little things you need
Now I've never been more attracted
How can I make you believe.

I don't remember forgetting
I don't seem to recall
If I neglected to show you I love you
I don't remember at all.

If I neglected to show you I love you
I don't remember at all...
