

Ricky Van Shelton, Where Was I

Well I think I get the message I'm not deaf and I'm not blind
But the signals that I'm getting have caught me by surprise
It seems that you've decided to just get up and go
But if the reasons here are oh so clear there's one thing I've got to know
Where was I I wish I knew you say it's all over baby I'm confused
Wasn't that you in my bed it must've been all in my head
When love finally said goodbye where was I

I didn't hear the train a comin' I didn't see the boat I missed
I didn't see the stop sign on the corner and I'm sure that I didn't see this
Where was I...
