Ride, Close My Eyes

Last night I had such a good time But there's a price to pay A night full of kicks, now the sun's in my eyes And I feel so weary today

I want to close my eyes I want to close my eyes I want to ride and ride and ride 'Til I'm nowhere

Make your body a blanket Let me rest my head The world can wait for just a few minutes more They might as well be dead

I want to close my eyes I want to close my eyes I want to ride and ride and ride 'Til I'm nowhere 'Til I'm nowhere

I want to close my eyes I want to close my eyes I want to close my eyes
