

Ride, I Don't Know Where It Comes From

I don't know where it comes from
I don't know where it comes from
I don't know where it comes from
Don't ask me where it comes from

There's something moving through the air
Years ago, it wasn't there
If people feel it, they don't care
Seems like everybody's sterilised
A piece is missing from their lives
They're never going to be surprised

I don't know where it comes from (don't ask me)
I don't know where it comes from (don't ask me)
I don't know where it comes from (don't ask me)
Don't ask me where it comes from

Turned on the radio tonight
And I was overwhelmed with shite
I got so numb I couldn't fight
What's going on, I can't define
How is it everyone's resigned
We're so uptight, we can't unwind

I don't know where it comes from (don't ask me)
I don't know where it comes from (don't ask me)
I don't know where it comes from (don't ask me)
Don't ask me where it comes from

I don't know where it comes from (don't ask me)
I don't know where it comes from (don't ask me)
I don't know where it comes from (don't ask me)
Don't ask me where it comes from

There's something moving through the air
Years ago, it wasn't there
If people feel it, they don't care
Seems like everybody's sterilised
A piece is missing from their lives
They're never going to be surprised
