

# Ride, Only Now

Only Now the jewel shining  
Only Now I've lost the fear  
In an hour I'll stop crying  
Along the road ahead

Early on our life burned  
Early on the gem not clear  
Comes the time to take a turn  
To find another way

And I swear  
No hurricane could lead me all astray  
And I swear  
No hurricane would dare to try to keep me away

Only Now have you touched me  
But by now you're who knows where  
Only Now has it hit me  
Wasn't sure before

Early on the signals cross  
Where's the potion where's the drug  
Just for now the jewel is lost  
Keep on the road ahead
