

Rides Again, Infected

So this is what it's like to be alive
Wide awake I open up my eyes
Tell me what this life really means
When nothing in my head is what it seems
Sooner or later
You'll be the shadow
Crawlin in my head
Take it or leave it,
You're like a sickness
I am infected
This is what it's like to be alive
Darker days have taken up my time
A little change is all I really need
Take me down a road I've never been
Sooner or later
You'll be the shadow
Crawlin in my head
Take it or leave it,
You're like a sickness
I am infected
When everything is goin wrong
Turn around an carry on
Juice the pain and say goodbye
You can leave this world tonight
You were meant to feel the sun
Burn away from everyone
When you feel so far from home
Close your eyes 'cause
Sooner or later
You'll be the shadow
Crawlin in my head
Take it or leave it,
You're like a sickness
I am infected
Take it or leave it,
You're like a sickness
I am infected
I am infected
I am infected
