

# Rigo Luna, How I Do

Yesterday's gone tommorw is here,  
Let that boy go, I got what you've been missin',  
You know it ain't right,  
He's treatin you wrong, but I know that  
If you just gave me the chance I can love  
You better,

[Bridge:]

Give you everything you need, cause  
You deserve better, cause I'm the kinda man who  
Will,

[Chorus:]

(be) strong enough to hold  
It down for you, so no-matter what we go through  
I'm gonna work it out with you, this is how I do,  
Man enough to tell you when I'm wrong,  
Baby I can sing your favorite song,  
Anything you want me to,  
This is how I do...

Don't have a clue, how good it can be,  
Let me in your life, and start to see the difference  
Make sure every day, I tell you how fly you are,  
I can be that man you been dreamin' bout,  
Cause I can do you better,

[Bridge:]

Give you everything you need, cause  
You deserve better, cause I'm the  
Kinda man that will be,

[Chorus:]

Strong enough to hold it down for you,  
So no-matter what we go through,  
I'm gonna work it out with you,  
This is how I do,  
Man enough to tell you when I'm wrong.  
Baby I can sing your favorite song,  
Anything you want me to,  
This is how I do...

Late night calls, just to say  
I miss you, with my boys, but I can't  
Forget you, I know those things are  
Things you just ain't use to,  
But you get all that and more  
When your with me cause I'm...

[Chorus: x3]

Strong enough to hold it down  
For you, so no-matter what we go through  
I'm gonna work it out with you, this  
Is how I do,..  
Man enough to tell you when I'm wrong.  
Baby I can sing your favorite song,  
Anything you want me to,  
This is how I do...
