

Ring Of Fire, Make Believe

(Lyrics and Melodies by Mark Boals / Music by Vitalij Kuprij)
(2002 Boalsongs BMI / Vitalij Kuprij Music)

Yesterday
Seems like a long time ago
I found out
What I still don't know

Please don't say things will never be the same
Just for today

Let's just make believe that we're in love again
Any fool could see we're more than only friends
Let's just make believe we're sorry and pretend
Instead of going our separate ways
Let's make believe

I won't mind
If the sun doesn't shine
A day without you is just a waste of time

We've come too far to throw it all away
Just for today

Let's just make believe that we're in love again
Any fool could see we're more than only friends
Let's just make believe we're sorry and pretend
Instead of going our separate ways
Let's make believe

Oooh...

Let's stay together once again
Until forever

Just take my hand
You'll understand
All that I am

I want you back with me
Why can't you see
How it could be

Let's just make believe that we're in love again
Any fool could see we're more than only friends
Let's just make believe we're sorry and pretend
Instead of going our separate ways
Let's make believe
(That we're in love again)
Let's make believe

(Let's just make believe we're sorry and pretend
Instead of going our separate...)
