## Ring Of Fire

From the shadows of sorcerer's knights  
To the wizard with jewels of light  
Secret languages runes and spells  
Ouroboros is well  
From the alchemists immortal gold  
To the elves with their powers untold  
Magic weapons and armour blest  
Will put you to the test  
Prophets, sages through the ages

The celestial flame is burning  
Ring of fire forever turning  
The unquenchable desire  
Born of wisdom in the ring of fire

Sword of Odin and Anvari's ring  
Slayed the dragon as orpheous signs  
As prometheous fire first burned  
Gifts of knowledge were learned  
Chidambaram inside us will call  
Flaming hearts are the center of all  
The salori of mystical peace  
Makes all ignorance cease  
Prophets sages through the ages

The celestial flame is burning  
Ring of fire forever turning  
The unquenchable desire  
Born of wisdom in the ring of fire
