

Ringside, Cold On Me

Don't go cold on me
I need you now more than ever
Don't go cold on me
We can work it out together
Oh, I'm a stupid man
Always getting into trouble
Baby tell me what's your plan
'Cos I need you here on the double

Yeah -we can make it, make it
Loving all through the night
Yeah - we can make it, make it
C'mon squeeze me tight
Sugar

Don't go cold on me
The squeak needs a wheel
Don't go cold on me
You got to know how it feels
I'm so into you, I swear that it's true
But there's always someone bringing me down
It's wrecking my home, I wanna bury the bone
Forty miles beneath the ground

Yeah -we can make it, make it
Loving all through the night
Yeah - we can make it, make it
C'mon squeeze me tight
Sugar
