

# Riot 99, Start A Riot

I'm sick of peace and quiet  
all we want, riot, riot, riot  
we don't need an excuse  
all we need is pills and booze

see the coppers standing there  
riot shields, I don't care  
bovver boots and petrol bombs  
they'll all run before too long

I'm sick and tired of this life  
nothing but trouble and strife  
lets hear the sound of running feet  
guns, drugs, f\*\*king in the streets
