

Rita Marley, My Kind Of War

Wouldn't it be nice to have a war with no bombs
Wouldn't it be nice to have a war with no guns
No one giving orders to kill
No one saying fire at will
Wouldn't it be nice to have my kind of war

My kind of war is a peaceful war
My kind of war is not a cold cold war
The well being of mankind, Justice, Equality
Is all my kind of war would defend constantly

Wouldn't it be nice to have a war with no bombs
Wouldn't it be nice to have a war with no guns
No one giving orders to kill
No one saying fire at will
Wouldn't it be nice to have my kind of war

My kind of war is not an arms race
My kind of war has no missiles flying through space
Leaders wouldn't fight in the Conference room
Job food and clothes for all there'd be no more gloom

Wouldn't it be nice to have a war with no bombs
Wouldn't it be nice to have my kind of war
No more neutron
No more proton
We just dealing with the love right now
No M 16
We just a live it up clean clean
No more sub-machine
I and I a live up clean
We just dealing with the love right now
We just dealing with the love right now
