

Rita Redshoes, Dream On Girl

Dream on girl, Dream on girl
I want to see you sleep tonight
You're up and down
You hit the ground
And time is drifting through your fears

I can find your dreams tonight
And make your lover come back home
If you don't know, you are on your own
I'll choose the best place for you to sleep

Come back to see the day you lost your heart
And all your hopes
I'll take you to see the sunrise and try to catch your ghost

Come on girl, a dream is your world
The signs you see are in your mind
The words that you speak are here in my ear
So I can hear you falling down

Take a breath to see me
I can wait for you to
Live a life with no hopes but
If you still believe...

Come back to see the day you lost your heart
And all your hopes
I'll take you to see the sunrise and try to catch your ghost

Come back to see the day you lost your heart
And all your hopes
