

# Rival Schools, Travel By Telephone

Must have been a mistake  
While you make things hard for me  
Wouldn't hurt you at all if I didn't have to  
Give in to our first fight  
Now that I see this side  
I want to more than I did before  
This night has opened my eyes  
I know you, hope I do now  
Communication down  
I know you, hope I do now  
We come closer  
Temptations, they crumble by your side  
You say you wouldn't hurt me at all  
Can be sure that you mean it  
If it's worth holding on to, we can stay in between it  
I know you, hope I do now  
Communication down  
I know you, hope I do now  
We come closer  
A comfort to us all  
Insured against a fall from normal life  
Afraid to be at it alone  
To shoulder I wonder is it safe for now  
This could go either way  
This could work out between us, or never again  
Make it clean, how realistic we mean to  
I know you
