

Rival Schools, Used For Glue

Days of the conflicts youve been in
Traces of conscience you dont want to hear
You hear it now
You listen, hear a sound
You missed it
Taken by conscience or taken by guilt
You live in the problems you decided to build
You hear it now
You listen and hear a sound that cant be still
The blame was found, you got it
Rode when she was new
you used for glue
But wasnt told when she was through
Yeah
Dazed for time you were into
Praise from the crowd that you wanted to fool
You call them now, theyre waiting
To hear a sound that cant be still
The blame is found, you got it
Rode when she was new but wasnt told when she was through
Yeah
listen now, the sound that cant be stole

The blame is found, you got it
Rode when she was new but wasnt told when she was through
Yeah
