

River City Rebels, Army Boy

Take the best and leave the rest
lace up your boots, get ready to shoot

Promised your money, sacrifice your honey
leave your dream, for sergeant mean

[Chorus]
Punk rocker sam left the band
to join the fucking army
never did think that his life would be fucked
but now he's in the army.

Do what you're told, pushups in the cold
The deal sounds good, way too fucking good.

It's your ass, on the front line
Now it's just a matter, a matter of time.

[Chorus]
