

Rivers Cuomo, I Was Made For You

Little one, how long I've waited here
Waited for so many lonely years
Nobody ever could make me smile
'Til you came 'round with your pretty style

And I will love you so
And I will love you so

'Cause I was made for you
And you were made for me
And that is all I know
You're all that I can see
'Cause I was made for loving you
And all the little things you do
Remind me who I am inside

Happiness is such a fickle thing
Nothing compares to what you can bring
You can bring meaning to what I do
That is why I want to be with you

And I will love you so
And I will love you so

'Cause I was made for you
And you were made for me
And that is all I know
You're all that I can see
'Cause I was made for loving you
And all the little things you do
Remind me who I am inside

My darling, I need you
I'd give myself to please you
My darling, I need you
I want you to be mine

'Cause I was made for you
And you were made for me
And that is all I know
You're all that I can see
'Cause I was made for you
And you were made for me
And that is all I know
You're all that I can see
'Cause I was made for loving you
And all the little things you do
Remind me who I am inside
Remind me who I am inside
Remind me who I am inside
