

# Rivets, Turn Off The Lights

Turn off the lights  
Are you happy?  
You get into my life (heart)  
And say it's easy to control what is alright  
Turn off the lights  
I'm happy  
Just say to me you're going to  
Believe the lights are flashing back to you  
You know, life goes by  
So, what you say is to believe, yeah  
Don't forget me no  
Just say to me you're here to go  
I've got this box with memories  
I say I'm coming  
To fight for what I want  
To fight to stay with you  
You make me live under control  
Oh, no, forget about it  
Don't tell me that you're not around to  
Fight to me and make me feel so bad  
You make me live under control  
Oh, no, I agree  
To help you if you stay with me  
Leave it to our hearts, well, that's so sad
