

RNG, Can't U C

Cant u c
She is my life
She will never find a love like mine
I can see
Shes so fine
And I know that this is hard to find
We should be together
Stay in your life forever
Share the everlasting love
Yo, she doesnt know how much she means to me
Thats right, she doesnt know that I wanna be her only man
Just dont give a damn for other chicks, no time for playing tricks
On you, what else is there to do
No doubt about that shit I really love you
No day passes by that Im not thinking of you
Not intended to play someone else above you
Cant u c
She is my life
She will never find a love like mine
I can see
Shes so fine
And I know that this is hard to find
We should be together
Stay in your life forever
Share the everlasting love
See, youre the type of lady, quite shady, the hot spot
Off the block, got an I on you, yes baby
You might have recognized me as Im passing you by
I was that guy that told you: You look so fly
Hard to get, very intellect, I like that
Noticed how you react, whenever Im on the set
Is there a chance to harmonize?
Be my wife, whats next to come let it be the roll of the dize
Bend backwards to show you my deal for real, strong like steal
Huh, now you know how I feel, dont let me suffer
My heart, I gave you is enough
Hoping that one day, girl, huh
I might be your lover
