

Road Trip's Over, The Road Trip's Over

It's over now
Yeah, yeah!
The road trip
Is over
I don't wanna go home right now
Everything sucks
And is useless
I don't have anything to do
Everyday and everynight
I dream about my new life time
I have the feelings that I can't explain
I'm tryin' to figure something out
But something's fucked up in my mind
And I'm sick of all this shit
The roadtrip's over now
I don't think
I'm stupid
Stupid is my life
I'm walking on my own way
It doesn't matter what people say
