

Road Trip's Over, You Killed Yourself

I am writing now this song
When darkness covers my room
Empty space with locked door
Like the poison stuck inside my brain
You don't know
You didn't need me anymore,
But I'll be waiting here for you to come
To see how long you're running wrong way blindly
You're not a little girl
Everything you understand
You wanna be alright
You've broken
My fucking life!
Look, honestly I don't give a fuck
Of all these words you say
I don't care what you think
Fuck you anyway!
The time we used to have
Was the time I used to waste
Why should I be first
To feel this pain again?
Now I know
Why you're not here
And why you turned away from me
Now I see
You killed yourself
You choose wrong way and break your neck
Don't make me
Be like you don't make me change the way I used to do
cause finally you'll kill me too!
Don't wanna save my life
I wanna make mistakes!
