

# Roadrunner United, The End

Just when you thought it was over  
The sky turned black and we all fell to Earth  
Dead in our tracks, we were frozen in fact  
Choking to breathe, then came the seas  
Wash away impurities, wash away all that couldn't be

Everyone will be washed away  
Drowning in the hell that we made  
I cannot believe that our end is so near

Standing at the end of our world  
Breathing in the chaos behold  
None will be found, it's all toppling down  
Cities will seethe, none could believe  
Wash away impurities, wash away all that couldn't be

Everyone will be washed away

Drowning in the hell that we made  
I cannot believe that our end is so near

Save me  
Save me from what will engulf this world  
Save us  
Save us from the end, save us from ourselves  
Save me  
Save me from what will engulf this world

Just when you thought it was over  
The sky turned black and we all fell to Earth (fell to Earth)

Everyone will be washed away  
Drowning in the hell that we made  
I cannot believe that our end is so near
