

Robben Ford, Politician

Hey now baby, get into my big black car
Hey now baby, get into my big black car
I just want to show you what my politics are

I'm a political man and practice what I preach
I'm a political man and I practice what I preach
Now don't deny me, not when you're in my reach

I support the left but I'm leaning to the right
I support the left but I'm leaning to the right
But you'll never find me not when there's a fight

Hey now baby get into my big black car
Hey now baby get into my big black car
I just want to show you what my politics are
