

Robben Ford, Sometime Love Robben Ford

When you fall for a love love that you'll never possess
It can only bring unhappiness
How can it ever be right
When you're finding yourself alone at night

Refro: I am waiting
I'm just a sometime love
I am waiting
I'm just a sometime love

She says that other man doesn't mean a thing
But she's under the weight of a diamond ring
How she longs to be free
We'll be together just wait and see

Refro: I am waiting
I'm just a sometime love
I am waiting
I'm just a sometime love

Long my days and dark my nights
Tick-tock of the clock with the lights up bright
Shades of the blues to come
You givin' your love she's gettin' it on the run

Refro: I am waiting
I'm just a sometime love
I am waiting
I'm just a sometime love
