Robben Ford, When I Leave Here

Time was baby when you treated me right
You used to stay at home, now you're stayin' out at night

Hey when I leave here, and you find what it means to be alone
You will cry for me, and pray one day that I'll come back home

Yeah you was spoiled ever since you was a child
Your mother and father let you run wild

Hey when I leave here, and you find what it means to be alone

You will cry for me, and pray that I'll come back home

When you were down, you treated me like your special friend
Now you treat me like your little boy,and it's got to end

Say you was blessed, by the stars up above
You can take care of yourself now , and you don't need my love

Hey when I leave here, and you find what it means to be alone
You'll cry for me and prey one day that I come back home
