

Robbie Nevil, C'Est La Vie

Got a job
that's okay
but they've got me workin' night and day.
Punchin' in
punchin' out
is this really what life's all about?
What you are gonna do
what you are gonna feel? I don't know.
What you are gonna feel
what you are gonna do?
Won't someone tell me?
What you wanna say
what you wanna do
there's only one thing left to say.
What you wanna do
what you wanna say.
C'est la vie
c'est la vie -
That's just the way it goes - That's right!
C'est la vie
c'est la vie -
That's just the way it goes - That's right!
Baby's gone all alone
are you sad because you're on your own?
Get back up
party down
there's so many good ones still around.
What you are gonna do
what you are gonna feel? I don't know.
What you are gonna feel
what you are gonna do?
Won't someone tell me?
What you wanna say
what you wanna do
I guess there's just one thing to say.
C'est la vie
c'est la vie -
That's just the way it goes - That's right! . . .
Hey
it's J.J.
what you been doin'?
You say your car broke down
the thing just isn't movin'.
Say J.J.
don't you know when you're down
there's just one way to go
And that's singin'
C'est la vie
c'est la vie -
That's just the way it goes - That's right! . . .
C'est la vie
c'est la vie -
That's just the way it goes - That's right! . . .
C'est la vie
c'est la vie -
That's just the way it goes - That's right! . . .
