

# Robbie Williams, Gold

are we disco dancing to throwing  
shapes in an empty space  
all eyes on me here we go now  
when I am done dancing  
with myself

I wanna move with you  
do you want me too?  
is there something better  
something better  
something better  
than me

no!  
There's nothing better  
nothing better  
nothing better  
than me

never going to lose that Wonder fall under your control  
go out and paint the world make it gold

whit tears in my eyes and love in my soul  
I feel like starting something  
the pain it subsides ythe minute I go  
I feel like starting something gold  
I feel like starting something gold  
do you feel like starting something gold

are you really real or a character form a film  
that I sow last year  
the cameras focusing on you  
it should be focusing on me  
it would be better  
never going to lose that wonder fall under your control  
go out and get the girl and paint her gold

whit tears in my eyes and love in my soul  
I feel like starting something  
the pain it subsides ythe minute I go  
I feel like starting something gold  
I feel like starting something gold  
do you feel like starting something gold

we all get lost on our way to the dream  
but we have to believe we are going somewhere better  
somewhere gold, gold  
never going to lose that wonder fall under your control  
go out and get the girl and paint her gold

I feel like starting something  
the pain it subsides the minute I go  
I feel like starting something gold  
something gold  
I feel like starting something gold  
something gold  
I feel like starting something gold
