

Robbie Williams, Talk To Me

Close the door turn out the lite
there's something really wrong tonight
with you, me and you
you say your to young to love
and to old to hate
remote control keeps you awake so turn me on

baby you could talk and make my day
you don't have to walk away to stay with me
make me change answer me
brake the chain

news at ten, eastenders and another cup of tea
and then a fight baby not tonight
cos i'm not dressed to be a clown
i'm not in the mood for shouting loud

talk to me make me change
answer me brake the chain

do you keep your lover outa sight
cos you look like someone else tonight alright, alright

talk to me make me change
answer me answer
