

# Robert Earl Keen, Beats The Devil

I can't remember when I was here  
But I'm back again  
I barely know you friend  
And everything's changed  
Sun burned up  
The sky turned green  
The air smelled of gasoline  
The soldier boy and teenage queen  
Have since become estranged

I keep movin'  
Like the wind across the sea  
What the hell am I doin'  
Beats the devil outta me
