

# Robert Earl Keen, Jr., I'll Go On Downtown

I've got clothes in my closet and new shoes to wear  
And all that I wanted, I've got more than my share  
And the woman who loves me she's more than a dream  
So why am I feeling so low down and mean?

Well I gave up on smokin' two years ago  
And I ain't been drinkin' for a month now or so  
And I tell everybody that I've nothin' to hide  
While I keep the devil locked deep down inside

Chorus:  
And tonight I'll be out there a runnin' around  
Tonight by the light of the moon on the ground  
Tonight while the neighbors are sleepin' so sound  
Tonight I'll slip off and I'll go on downtown

We used to get crazy and jump in our cars  
We'd burn up the highways and we'd close down the bars  
But now we're all married and some moved away  
Now, when we get together there's nothing to say

Chorus

The lights are all down and the moon's hangin' high  
And the stars are all shining way up in the sky  
And if anyone's askin' where I can be found  
It's home in the mornin' but tonight I'm downtown

Chorus x2
