

# Robert M, For Love (ft. Akil Wingate)

Tie a string around my finger love  
I pray it brings a wedding ring for love  
Made a wish upon a shooting star  
Do a kiss, do whatever you want

It must be love, hope you're find me soon  
Shall we love under that clear moon  
Cast a spell and hope it calls your name  
I wish you well and hope you feel the same

Heartache won't take my wishes for granted  
So bring to me to love  
Right here where I'm standing

I celebrate new love, dedicate to love  
The things that we do for love

Haven't take, I can wait for love  
No mistake, that I pray for love  
Everyday, I hope to find new love  
Someone said, best to try to love  
Love peace may try real love on me  
Help me feel your love, mercy me  
Is distant love my dreams

Don't waste your time  
Oh love has come  
The day holds much more  
Loves no open time

Right here where I'm standing  
I celebrate new love, dedicate to love  
The things that we do for love  
I celebrate new love, dedicate to love  
The things that we do

It must be love, hope you're find me soon  
Shall we love under that clear ...  
Cast a spell and hope it calls your name  
I wish you well and hope you feel the same
