

Robert Palmer, Honey Bee

Honey bee, honey bee
Our hearts sing sympathy
Such a sweet melody
Honey bee, honey bee

How do I count all the ways that you understand
Multiply the stars in the sky by the grains of sand
Satisfy me
Your loves better than I ever planned
Tantalise me honey bee
I'm at your command
Planet keep on turnin'
Planet keep on goin' round

Illegal marijuana
Better give that man a cigar
Let's go hear him play the guitar
Come and take a ride in my car

Well, well I say, honey bee
I'm your main devotee
Let's establish a colony
Honey bee
Walk beside me
I'm in heaven when I hold your hand

Hypnotise me just Alice in a Wonderland
Well, I say, honey bee
You're my great fantasy
I love your company
Be with me in this tree
Planet keep on turnin'
Planet keep on goin' round
