

# Robert Palmer, What Can You Bring Me

(J Gadson)

When your lovin' is gone  
And you can't carry on  
What can you bring me  
When there ain't nobody else  
And you can't help yourself  
What can you bring me  
What can you bring me  
Can you bring me that happy day  
Let me know that everything is OK  
Bring it strong and bring it fast  
bring it till the pain is in the past  
What can you bring me, that'll unchain me  
What can you bring me  
What can you bring me baby  
What can you bring me  
Like a amn whose on that road, drivin' hard towards his goal  
Like I'm on my last go round  
My love life's lost and can't be found  
What can you bring me  
What can you bring me  
Hurry baby, don't waste time  
I need somebody, help me solve this crime  
Bring it strong and bring it fast  
bring it till the pain is in the past  
What can you bring me, that'll unchain me  
What can you bring me  
What can you bring me  
What can you bring me  
What can you bring me  
What can you bring me  
Help my equilibrium baby  
What can you bring me  
What can you bring me  
What can you bring me  
What can you bring me
