

Robert Palmer, What Can You Bring Me

(J Gadson)

When your lovin' is gone
And you can't carry on
What can you bring me
When there ain't nobody else
And you can't help yourself
What can you bring me
What can you bring me
Can you bring me that happy day
Let me know that everything is OK
Bring it strong and bring it fast
bring it till the pain is in the past
What can you bring me, that'll unchain me
What can you bring me
What can you bring me baby
What can you bring me
Like a amn whose on that road, drivin' hard towards his goal
Like I'm on my last go round
My love life's lost and can't be found
What can you bring me
What can you bring me
Hurry baby, don't waste time
I need somebody, help me solve this crime
Bring it strong and bring it fast
bring it till the pain is in the past
What can you bring me, that'll unchain me
What can you bring me
What can you bring me
What can you bring me
What can you bring me
What can you bring me
Help my equilibrium baby
What can you bring me
What can you bring me
What can you bring me
What can you bring me
