

# Robert Plant, Angel Dance

Goodnight, sleep tight, big bright song has gone away  
Ya know it's gone away  
Good bye, don't cry, tomorrow bring us a brand new day  
We can run away  
And they'll laugh up and down the hall  
Don't go shout when you hear them fall  
Let them fly right across the wall  
Let them cry till the morning call

Little angel dance  
Little angel dance

Big night, bright lights, time now to lay them under arrest  
Put'em under arrest  
Bad guys, mean eye, all gone away to where they belong  
Let's just sing our song  
And they'll laugh up and down the hall  
Don't go shout when you hear them fall  
Let them fly right across the wall  
Let them cry till the morning call

Little angle dance  
Little angle dance  
Little angle dance
