

Robert Plant, Little Hands

Little hands clapping - children are laughing
Little hands clapping all over the world
Piper is piping - drummers are drumming
Little hands clapping all over the world

Little hands clapping - children are sharing
Little loves loving, all boys and all girls
Children are singing - truths that they're bringing
Freedom is ringing all over the world
Come let us meet them, oh
Yes we will greet them, oh

Little hands clapping - children are caring
Piper is calling all over the world
Out in the street now - sick that you meet now
How many new friends do you call your own?
Come let us meet them, oh
Yes we will greet them, oh, oh oh...

Little hands clapping - truth that they're grasping
A world with no pain for one and for all
Children are learning - souls they are yearning
A nice place to play and no place to fall
Come let us meet them
Yes we will greet them
