What we call freedom in the North  
means our freedom to use you  
and if you don't co-operate  
we'll cut off your supply lines.  
But you'll be free to re-connect  
if you beg our forgiveness.  
You say I over-simplify.  
Well yes, so did Albert Einstein.

There simply is no middle ground  
Pentagon ber alles.  
There never was a middle ground,  
that's the point I was making.  
There's no such place as middle ground  
Left or Right of the equator.
