

Robin Schulz, One With The Wolves

Yeah, I'm one with the wolves and I'm wild

Lost where the wind blows
Where the lights are out, I'm hoping
For a thousand miracles
Heaven [?]

[?] and I'm playing the fool
I only follow the moon
No star takes me down 'cause I've been to the ground
I don't need saving

I'm becoming one with the wolves, I don't run from the fire
I'm one with the wolves and I'm wild
I'm becoming one with the wolves, I don't run from the fire
I'm one with the wolves and I'm wild

Yeah, I'm one with the wolves and I'm wild
Yeah, I'm one with the wolves and I'm wild

Walking 'round the city, nothing feels like home
The night is creeping and it's speeding up my soul
Mama said that I should never run alone
But nothing can help, this feeling won't go

[?] and I'm playing the fool
I only follow the moon
No star takes me down 'cause I've been to the ground
I don't need saving

I'm becoming one with the wolves, I don't run from the fire
I'm one with the wolves and I'm wild
I'm becoming one with the wolves, I don't run from the fire
I'm one with the wolves and I'm wild
I'm becoming one with the wolves, I don't, one with the wolves
I don't one, one, one, one

Yeah, I'm one with the wolves and I'm wild
Yeah, I'm one with the wolves and I'm wild
Wild, wild
Yeah, I'm one with the wolves and I'm wild
Wild, wild
Yeah, I'm one with the wolves and I'm wild
